

Appointment Booking Guide

Patients can consult medical specialists at Apollo Hospitals by booking appointments through various channels. This guide details the appointment workflow.

1. Booking Channels

Appointments can be booked online via our official portal (www.apollohospitals.com/appointments), our mobile application, or by calling our centralized booking line (+91 40 4344 0100).

2. Check-In & Token Generation

On the day of your appointment, check in at the department reception counter 15 minutes prior to your slot. The system generates a token number, and live queue statuses are displayed outside the consulting cabins.

3. Cancellation & Rescheduling

Appointments can be cancelled or rescheduled up to 2 hours before the scheduled time slot. Cancellations made inside the window receive a full refund, processed back to the patient's card/account in 5-7 working days.
